Seafood Products Association
1600 South Jackson Street
Seattle, WA 98144

The Better Process Control Schools (BPCS) certify supervisors of thermal processing systems and container closure evaluation programs for acidified and low-acid canned foods. Each processor of acidified and low-acid canned foods must operate with a certified supervisor in accordance with 21 CFR 113.10.

FDA's regulations in 21 CFR 108, 113, and 114 became effective May 15, 1979. These regulations are designed to prevent public health problems in low-acid and acidified low-acid canned foods. The BPCS provides the practical application of the principles set forth by these regulations. This course has been tailored to meet requirements for acidified and low-acid canned food producers.

Track 1:
April 21-23, 2020
2.5 - Day Acidified Foods Only
SPA members $450.00 per person.
Non-members $550.00 per person.
